

Date: 23/02/26

Not In Attendance: N/A

Taken by: Tom

File State: Complete

What's Been Done since the Previous Meeting:

<Thomas Eardley te215@kent.ac.uk>: Plan TODO, Design Habits Page, Design Agen Page, Design Profile Page, Migrate Code to GIT, Write Supervisor Update, Write Minutes for this week, Identify Home Page sections, Identify Custom Components within all sections of the homepage and define their contents. Design the CSS layout of the homepage sections, plan logic for receiving and displaying chat data inside the agent widget as well as the structure of the data.

<Daniel Dixon djd41@kent.ac.uk>: Design Calander Page, Design Insights Page, Design Social Page, Identify Callender Page Sections.

What's Being Done:

<Thomas Eardley te215@kent.ac.uk>: Define the CSS layout of the Home Page in its entirety.

<Daniel Dixon djd41@kent.ac.uk>: Identity Custom Components of each section within the calendar and define their components.

Further Discussion:

We mentioned and discussed with our supervisor how we changed our designs.

We discussed the poster fair and how to create the best impression with the second marker.

We discussed a balance of selling and technical dialogue on the poster.

We discussed the use of demo code and Interactive design prototypes at the poster fair.

We discussed having functional code by the poster fair.
